

# Pragmatica Innovations

## Enterprise Services, Products and Solutions

Pragmatica Innovations offers a wide variety of services and products that address all aspects of your enterprise - from strategy to execution. Enterprise optimization enabled through capture, analysis and visualization of:

- Strategy, Management and Governance
- System, Solutions and Technology
- Facility, Network and Infrastructure
- Business and Operations
- Information, Metadata and Data
- Human Capital and Competency

### Enterprise Services

We provide services to optimize your enterprise through structured analysis and information management.

- Process modeling, management consulting, business process management, application integration, project federation and enterprise architecture development/analysis/governance
- New implementations for multiple types of deployment; including IBM System Architect, DE<sup>2</sup> Repository, SharePoint or our **Data Enabled Enterprise (DE<sup>2</sup>) Suite** - or any blended solution
- Enhancement or optimization of a current solution using our 'data-enabled' approach
- Custom development for modeling, tools use, scenario development, reporting, visualization, workflow, policy implementation, business intelligence/analysis and specialized data collection
- Software as a service (SAAS) for a fully hosted collaborative repository
- Mentoring, Education and Training for all services and solutions

### Enterprise Products

Pragmatica Innovations also provides a complete set of products focused on enabling your enterprise with data to make informed decisions. We work with every customer and partner to ensure their self-sufficiency while leveraging our DE<sup>2</sup> suite of products to optimize your organization. Customers can choose from:

- **Data Enabled Enterprise Modeler (DE<sup>2</sup>M) Lite, Standard or Enterprise**

*The utility & flexibility of Microsoft Visio, coupled with relational database power, enabled by the extensibility of DE<sup>2</sup> Repository make DE<sup>2</sup>M the ultimate enterprise modeling solution. (Lite and Standard versions use MS Access only.)*

- **Data Enabled Enterprise (DE<sup>2</sup>) Repository**

*Fully web enabled, enterprise level repository for visualization, rapid analysis and optimization. All aspects of the repository are easily configurable and can mature at the pace of your enterprise.*

- **Visio Stencil Sets**

*A variety of Microsoft Visio stencils 'data enabled' for DE<sup>2</sup>M are available or can be custom built to your design.*

### Enterprise Solutions

Our product and services combine to enable multiple solution domains across the full spectrum of Federal, State and Local entities, including all Industry and Commercial specific areas to support:

- Portfolio management
- Capital planning and Investment control
- Facility management
- Process improvement
- Workforce and Competency analysis
- Systems engineering
- Strategic analysis
- Supply chain management
- Manpower analysis
- Network management
- Master data management
- Knowledge Management

Our workforce is skilled in the implementation and application of multiple frameworks to include DODAF, TOGAF, -42-, FEAF, MODAF and NAF using the latest reference models such as ITIL, CMM, JCA and SOA-RM. Methodologies used include Six Sigma, ABM, ABC, SDLC or SADT with specific support for a number of languages and notations like UML, IDEF, BPMN or SysML.
